SUBJECT: 2021-22 LCAP and ADOPTED BUDGET – APPROVAL

The County Superintendent of Schools is required to review and approve the district's Local Control and Accountability Plan or the annual update to an existing Local Control and Accountability Plan prior to the approval of the district's Adopted Budget [Education Code Section 42127(d)(2)].

Adopted Local Control and Accountability Plan

In accordance with California Education Code (EC) Section 52070, our office has completed its review of the district's 2021-22 Local Control and Accountability Plan (LCAP) to determine whether it adheres to the guidelines adopted by the State Board of Education (SBE).

The district's adopted LCAP has been analyzed to determine whether:

- The plan adheres to the template adopted by the State Board of Education;
- The budget includes sufficient expenditures to implement the actions and strategies included in the plan, based on the projected costs included in the plan; and
- The plan adheres to the expenditure requirements for funds apportioned on the basis of the number and concentration of unduplicated pupils.

The district's adopted LCAP has been analyzed in the context of the guidance provided by the California County Superintendents Educational Services Association (CCSESA) and the California Department of Education (CDE). Based on our analysis, the district's Local Control and Accountability Plan for the 2021-22 fiscal year has been approved by the Riverside County Superintendent of Schools. Our goal is to further enhance the performance of students by providing feedback and inquiry questions that will support your refinement of the 2021-22 Local Control and Accountability Plan to close the achievement gap in metrics that impact student preparedness for college and career.

Student Achievement

The purpose of the LCAP is to ensure that all students graduate from high school with the skills needed to be successful in both college and career. Riverside County Office of Education conducted a review of research on K-12 college readiness indicators to identify those that would align with the LCAP purpose and have greatest impact. As a result of this research, we recommend that local education agencies (LEAs) closely monitor the metrics listed in the data tables below for all student groups.

Beaumont Unified School District Student Groups – Program Participation Status						
Indicator	LEA	Socioeconomically Disadvantaged	English Learner	Foster Youth	Homeless Youth	Students with Disabilities
Enrollment Count 2020 ¹	10,769	6,314	946	155	23	1,431

We offer the following commendations and inquiry questions to consider for the implementation of the 2021-22 Local Control and Accountability Plan and the refinement of the plan in future years:

Student Academic Success in English Language Arts (ELA) and Mathematics

The district is to be commended for ensuring that students who were in a hybrid class for K-5 were able to stay with their current teacher when they returned to in-person instruction to ensure consistency and connectedness.

Additional dialogue related to the questions below may support achievement of the goal and desired outcomes aligned to student achievement in ELA and mathematics:

- How might the district consider a systematic approach to evaluating the effectiveness of the site-based intervention teachers and the outcomes for English Learner, Students with Disabilities, Foster Youth, and American Indian student groups? Additionally, how will the district leverage local assessments to drive instructional objectives and targeted interventions for students?
- How might the district support the matriculation between elementary/middle school and middle/high school, such that the district can intervene early and appropriately to ensure that students are successful in critical transition years?
- How might the district reflect on identified barriers to student success in mathematics to refine current practices to increase student learning?

Course Access and Student Enrollment in Rigorous Coursework and Career Technical Education (CTE) Pathways

The district is to be commended for their significant effort on improving college and career readiness, course access, and CTE offerings through programs, professional development, and recruitment efforts.

Additional dialogue related to the questions below may support achievement of goals and desired outcomes aligned to course access and student enrollment in rigorous coursework and CTE pathways:

- How might the district look at academic pathways for all students – especially historically underserved students – to ensure that they have access to A-G courses along with systemic support throughout their high school journey?
- How might the district leverage efforts to increase access and enrollment in Advanced Placement (AP) courses for historically underserved students?
- How might the district utilize local assessments to ensure and monitor that historically underserved students are on-track toward the College/Career Indicator (CCI)?

Pupil Engagement and School Climate

The district is to be commended for providing training and focused support on alternatives to suspension, restorative justice, and equitable discipline practices as a step forward in creating safe and equitable learning environments. An additional commendation is the district's focused effort on supporting Homeless Youth and Foster Youth student groups, such as providing a Student Services coordinator to align programs and support across the district for students, specifically to provide support to school sites and services for Homeless Youth and Foster Youth student groups.

Additional dialogue related to the questions below may support achievement of the goals and desired outcomes aligned to pupil engagement and school climate:

- How might the district capitalize on community assets, student and family voice, and educator engagement as the district transitions to a restorative community?

- How might the district leverage the feedback of student and adult stakeholders to promote a collective school community that demonstrates care, concern and empathy such that students and staff thrive?

Monitoring Progress

It is recommended that the district utilize a process that continually assesses the progress of each planned action and its effectiveness in achieving the *Desired Outcomes* related to each goal specified in the LCAP. Identifying leading indicators for progress on goals and developing a system to monitor those indicators throughout the year is encouraged. The information received from progress monitoring can support communication with stakeholders and provide information the district will need to clearly articulate, in the *Goal Analysis* section of the plan, the effectiveness of the planned actions/services.

To access resources and tools that will support future LCAP development, please go to <https://www.rcoe.us//lcap-support>.

Fiscal Recommendations

During our review, we identified opportunities to improve data accuracy between the district's LCAP and fiscal documents. After board adoption, the district revised certain items, which had no material impact on the implementation of the district's plan.

Adopted Budget

The district's Adopted Budget was developed in the context of the Governor's 2021-22 May Revise. Subsequently, the 2021-22 State Budget was adopted, which contained significant differences from the May Revise. The district should update and revise its budget projections to reflect changes in available funding and the associated programming responses.

Based on our analysis of the information submitted, and our assessment of revenue changes in the enacted State Budget, we approve the district's budget, but would like to highlight the following:

Enrollment and Average Daily Attendance (ADA) – The district estimates 10,160 ADA for the current fiscal year, or a 1.4 percent decrease from the held harmless 2020-21 P-2 ADA. For 2022-23 and 2023-24, the district projects ADA to remain flat. It will be important for the district to monitor enrollment in the current and subsequent years to ensure accurate LCFF revenue and plan accordingly.

Local Control Funding Formula (LCFF) – The district's Adopted Budget incorporates LCFF funding as proposed in the Governor's 2021-22 May Revision which includes a compounded COLA of 5.07 percent for 2021-22. For the 2022-23 and 2023-24 fiscal years, the district is projecting no LCFF COLA. Subsequent to the district's Adopted Budget approval, the 2021-22 enacted State Budget increased the concentration grant funding factor from 50 percent to 65 percent, which includes a provision that 15 percent of the grant must be used to increase the number of credentialed or classified staff who provide direct services to pupils. We encourage the district to update its projection of available LCFF funding provided by the enacted state budget and incorporate the stakeholder engagement process in the creation of the district's one-time supplement to the

Annual Update of the 2021-22 Local Control and Accountability Plan, which must be board approved on, or before, February 28, 2022.

Unrestricted Deficit Spending – The district’s Adopted Budget indicates a positive ending balance for all funds in the 2021-22 fiscal year. However, for the unrestricted General Fund, the district anticipates expenditures and uses will exceed revenues and sources by \$2.6 million in 2021-22, \$5.6 million in 2022-23, and \$11.9 million in 2023-24. Our office strongly discourages districts from committing to additional ongoing expenditures without offsetting reductions and stresses the need to begin identifying solutions to reduce any structural deficit.

Employee Negotiations – As of the board date, June 8, 2021, the district reports salary and benefit negotiations continue with both the certificated and classified bargaining units for the 2021-22 fiscal year. Prior to entering into a written agreement, California Government Code (GC) Section 3547.5 requires a public school employer to publicly disclose the major provisions of a collective bargaining agreement, including but not limited to, the costs incurred in the current and subsequent fiscal years. The disclosure must include a written certification signed by the district superintendent and chief business official that the district can meet the costs incurred by the district during the term of the agreement. Therefore, please make available to the public and submit a disclosure to our office at least ten (10) working days prior to the date on which the governing board is to take action on a proposed agreement.

Reserve for Economic Uncertainties – The minimum state-required reserve for a district of Beaumont Unified School District’s size is 3.0 percent; however the governing board requires the district maintain a 3.0 percent plus one month’s operating expenditures reserve for economic uncertainties. In light of the current fiscal environment, our office recommends districts maintain reserves higher than the minimum and commends the district’s board for this fiscally prudent practice. The district projects to meet the minimum reserve requirement, and board required reserve, in the current and subsequent fiscal years.

Cash Management – Attention to cash solvency remains a critical fiscal practice and should continue to be prioritized in the coming year. The district projects sufficient cash balances to cover projected expenditures during the 2021-22 fiscal year. Should the district identify the need for other temporary borrowing options, our office strongly advises districts to consult with legal counsel and independent auditors prior to using Cafeteria Special Revenue Fund (Fund 13) and Building Fund (Fund 21) for temporary interfund borrowing purposes to remedy cash shortfalls.

COVID-19 Response Funds – Both the Federal and State governments have provided substantial one-time funding to schools in response to the COVID-19 pandemic, which include specific restrictions on timing and use of the funds. The enacted budget trailer bill extended several timelines for the one-time funding, therefore developing multi-year plans on the use of these funds, as well as capturing additional detail required for federal reporting purposes, will be critical to the district’s long-term plan. We encourage districts to begin formulating a plan for these funds that incorporates Federal and State requirements and how the district will mitigate any ongoing expenditures that are planned to be supported by one-time funding.

AB 2756 – Current law, as enacted through AB 2756 (Chapter 52, Statutes of 2004), requires the County Superintendent to review and consider any studies, reports, evaluations, or audits that may contain evidence a district is showing fiscal distress. Our office did not receive any such reports for the district.

Conclusion

Our office commends the district for its efforts thus far to preserve its fiscal solvency and maintain a quality education program for its students. If we can be of further assistance, please do not hesitate to contact our office.
