SUBJECT: 2022-23 LCAP and ADOPTED BUDGET – APPROVAL

The County Superintendent of Schools is required to review and approve the district's Local Control and Accountability Plan or the annual update to an existing Local Control and Accountability Plan prior to the approval of the district's Adopted Budget [Education Code Section 42127(d)(2)].

Adopted Local Control and Accountability Plan

In accordance with California Education Code (EC) Section 52070, our office has completed its review of the district's 2022-23 Local Control and Accountability Plan (LCAP) to determine whether it adheres to the guidelines adopted by the State Board of Education (SBE).

The district's adopted LCAP has been analyzed to determine whether:

- The plan adheres to the template adopted by the State Board of Education.
- The budget includes sufficient expenditures to implement the actions and strategies included in the plan, based on the projected costs included in the plan.
- The plan adheres to the expenditure requirements for funds apportioned on the basis of the number and concentration of unduplicated pupils.
- The plan includes the calculations to determine whether there is required carryover. If applicable, the plan includes a description of the planned uses of the specified funds and a description of how the planned uses of those funds satisfy the requirements for specific actions to be considered as contributing toward meeting the increased or improved services requirement.

The district's adopted LCAP has been analyzed in the context of the guidance provided by the California County Superintendents Educational Services Association (CCSESA) and the California Department of Education (CDE). Based on our analysis,

the district’s Local Control and Accountability Plan for the 2022-23 fiscal year has been approved by the Riverside County Superintendent of Schools. Our goal is to further enhance the performance of students by providing feedback and inquiry questions that will support your refinement of future Local Control and Accountability Plans and any additional plans designed to close the achievement gap in metrics that impact student preparedness for college and career.

Student Achievement

The purpose of the LCAP is to ensure that all students graduate from high school with the skills needed to be successful in both college and career. Riverside County Office of Education conducted a review of research on K-12 college readiness indicators to identify those that would align with the LCAP purpose and have the greatest impact. As a result of this research, we recommend that local education agencies (LEAs) closely monitor the metrics listed in the data tables below for all student groups.

Val Verde Unified School District Student Groups – Program Participation Status						
Indicator	LEA	Socioeconomically Disadvantaged	English Learner	Foster Youth	Homeless Youth	Students with Disabilities

We offer the following commendations and inquiry questions to consider for the implementation of the 2022-23 Local Control and Accountability Plan and the refinement of the plan in future years:

Student Success in Academics

The district is to be commended for their continued focus on literacy, college and career indicators, and English Learner (EL) reclassification for all students. Early literacy increased four points overall and for each unduplicated student group, indicating that the district's efforts around early literacy are continuing to improve student outcomes. Prior to the suspension of state testing, an upward trend in the areas of College and Career Indicators such as graduation rates and A-G completion rates were on the rise. Val Verde has continued to focus on providing professional development, local formative assessments, and transcript analysis to continue with the upward trend in these areas.

Additional dialogue related to the questions below may support achievement of the goals and desired outcomes aligned to student academic achievement:

- How might professional development be more focused towards unduplicated students' academic performance?

- In what ways can an increased focus on the science of reading influence early literacy efforts?
- What monitoring system might be put in place to measure the impact of increased resources applied to school libraries?

Student Access, Enrollment, and Success in Rigorous Coursework

The district is to be commended for its graduation rate, early literacy improvement, and increased participation in visual and performing arts (VAPA) courses by high school students. The district is also to be commended for increasing staffing at the high schools in counseling, CTE, Dual Enrollment, and A-G courses.

Additional dialogue related to the questions below may support achievement of the goals and desired outcomes aligned to student access, enrollment, and success in rigorous coursework:

- How might the district improve A-G and CTE Pathway completion rates, post pandemic?
- How might the district recruit students to participate in CTE courses?

Student Engagement and School Climate

The district is to be commended for their comprehensive approach to family engagement, including a Family Engagement Center and staff, the African American Success Committee, and bilingual staff. They are also to be commended for their broad variety of approaches to improving school climate through Multi-Tiered System of Supports (MTSS) for climate and culture, a K-8 sports program, and special education Social and Emotional Learning (SEL) supports.

Additional dialogue related to the questions below may support achievement of the goals and desired outcomes aligned to student engagement and school climate:

- How can the district use the learnings from the "Footsteps to Freedom" tour in its equity work?
- Can VAPA events potentially be utilized as a way to engage families more closely with the school sites?
- Is it possible to utilize the bilingual staff to conceptualize and bring forward new parent/family events?
- How might the district expand extracurricular activities such as technology, arts, and sports to decrease the suspension and chronic absenteeism rates?

Monitoring Progress

It is recommended that the district utilize a process that continually assesses the progress of each planned action and its effectiveness in achieving the *Desired Outcomes* related to each goal specified in the LCAP. Identifying leading indicators for progress on goals and developing a system to monitor those indicators throughout the year is encouraged. The information received from progress monitoring can support communication with stakeholders and provide information the district will need to clearly articulate, in the *Goal Analysis* section of the plan, the effectiveness of the planned actions/services.

To access resources and tools that will support future LCAP development, please go to <https://www.rcoe.us/lcap-support>.

Adopted Budget

The district's Adopted Budget was developed in the context of the Governor's 2022-23 May Revise. Subsequently, the 2022-23 State Budget was adopted, which contained significant differences from the May Revise. The district should update and revise its budget projections to reflect changes in available funding along with updating LCAP contributing actions and services to incorporate the associated increased funding.

Based on our analysis of the information submitted, and our assessment of revenue changes in the enacted State Budget, we approve the district's budget, but would like to highlight the following:

Enrollment and Average Daily Attendance (ADA) – The district estimates 17,982 ADA for the current fiscal year, or a 3.7 percent increase from the certified 2021-22 P-2 ADA. For 2023-24 the district projects a 0.1 percent decrease in ADA and for 2024-25 the district projects a 1.3 percent increase in ADA. It will be important for the district to monitor enrollment in the current and subsequent years to ensure accurate LCFF revenue and plan accordingly.

Local Control Funding Formula (LCFF) – The district's Adopted Budget included COLAs for LCFF funding of 6.56 percent, 3.61 percent, and 3.64 percent for the 2022-23, 2023-24, and 2024-25 fiscal years, respectively. Subsequent to the district's Adopted Budget approval, the 2022-23 enacted State Budget included a statutory COLA of 6.56 percent with an additional 6.28 percent increase to the LCFF base grants for the current fiscal year. The enacted State Budget also included a 2021-22 ADA relief provision. We encourage the district to update its projection of available LCFF funding provided by the enacted state budget.

Unrestricted Deficit Spending – The district's Adopted Budget indicates a positive ending balance for all funds in the 2022-23 fiscal year. However, for the unrestricted General Fund, the district anticipates expenditures and uses will exceed revenues and sources by \$31.4 million in 2022-23, \$20.2 million in 2023-24, and \$20.2 million in 2024-25.

Employee Negotiations – As of the board date, June 21, 2022, the district reports salary and benefit negotiations are complete with both the certificated and classified bargaining units for the 2022-23 fiscal year.

Reserve for Economic Uncertainties – The minimum state-required reserve for a district of Val Verde Unified School District's size is 3.0 percent. The district projects to meet the minimum reserve requirement in the current and two subsequent fiscal years. Additionally, existing law imposes a 10 percent cap on the amount school districts can maintain in their reserves in fiscal years immediately succeeding those in which the Public School System Stabilization Account balance is at least 3 percent of TK-12 Prop. 98 funding. This condition was met with the 2021-

22 deposit amount, triggering the local reserve cap for the 2022-23 fiscal year. The district projects to meet the imposed 10 percent reserve cap.

Cash Management – Attention to cash solvency remains a critical fiscal practice and should continue to be prioritized in the coming year. The district projects sufficient cash balances to cover projected expenditures during the 2022-23 fiscal year. Should the district identify the need for temporary borrowing options, our office strongly advises districts to consult with legal counsel and independent auditors prior to using Cafeteria Special Revenue Fund (Fund 13) and Building Fund (Fund 21) for temporary interfund borrowing purposes to remedy cash shortfalls.

AB 2756 – Current law, as enacted through AB 2756 (Chapter 52, Statutes of 2004), requires the County Superintendent to review and consider any studies, reports, evaluations, or audits that may contain evidence a district is showing fiscal distress. Our office did not receive any such reports for the district.

Conclusion

Our office commends the district for its efforts thus far to preserve its fiscal solvency and maintain a quality education program for its students. If we can be of further assistance, please do not hesitate to contact our office.
