

RCOE, Resource & Referral is introducing *Passport to Success*, a professional development program for potential child care providers, family child care home providers, and child care center staff. Training pathways have strands that include various training topics related to that strand.

Once a training session in a strand in the pathway is completed, participants will receive a stamp in their digital Passport. **Once all the stamps for a strand in the pathway are complete, participants will receive educational incentive items to use in their early care and education program.** In addition, each training will provide professional development hours for the California Child Development Permit.
