

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Nova Academy - Coachella

CDS Code: 33736760121673

School Year: 2022 – 23

LEA contact information: Renee Lancaster

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022 – 23 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Nova Academy - Coachella expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Nova Academy - Coachella is \$4,378,500.00, of which \$3,169,037.00 is Local Control Funding Formula (LCFF), \$846,486.00 is other state funds, \$0.00 is local funds, and \$362,977.00 is federal funds. Of the \$3,169,037.00 in LCFF Funds, \$957,428.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Nova Academy - Coachella plans to spend for 2022 – 23. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Nova Academy - Coachella plans to spend \$4,300,458.00 for the 2022 – 23 school year. Of that amount, \$1,070,319.00 is tied to actions/services in the LCAP and \$3,230,139.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Expenditures include direct and indirect costs to provide an Early College High School educational program for all students enrolled in Grades 9-12 with NOVA Academy Charter School in Santa Ana, CA. Expenses include but may not be limited to certificated salaries; non-certificated salaries; employee benefits; instructional materials and supplies; operational supplies; services and operational costs such as

Increased or Improved Services for High Needs Students in the LCAP for the 2022 – 23 School Year

In 2022 – 23, Nova Academy - Coachella is projecting it will receive \$957,428.00 based on the enrollment of foster youth, English learner, and low-income students. Nova Academy - Coachella must describe how it intends to increase or improve services for high needs students in the LCAP. Nova Academy - Coachella plans to spend \$1,061,627.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021 – 22

This chart compares what Nova Academy - Coachella budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Nova Academy - Coachella estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021 – 22, Nova Academy - Coachella's LCAP budgeted \$1,052,958.00 for planned actions to increase or improve services for high needs students. Nova Academy - Coachella actually spent \$1,070,319.00 for actions to increase or improve services for high needs students in 2021 – 22.

Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
NOVA Academy - Coachella	Renee Lancaster - CEO	renee-lancaster@nova-academy.org (714) 569-0948 x1027

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2021–22 Local Control and Accountability Plan (LCAP).

The LEA will continue to engage educational partners on the use of funds via events and meetings such as, but not limited to, Parent University meetings, regularly scheduled Board meetings open to the public, faculty and staff weekly professional development meetings, and other family information meetings.

Thus far, the additional funding provided through the Budget Act of 2021 not included in the 2021-2022 LCAP includes the Expanded Learning Opportunities (ELO) Grant Plan, the In-Person Instruction (IPI) Grant, the A-G Improvement (A-G) Grant, and the Learning Recovery Plan (LRP) designated for students participating in Special Education programs.

While not all funding has been received and not all plans have been completed based on timelines available for those plans, the plan for engaging educational partners remains paramount for discussion and improvement. Previously, the completed grants were brought to the LEA’s governing board and/or to educational partner teams for review. Teacher and staff discussed the ELO during Professional Development sessions on 05/03/21 and 05/24/21, Principal and Instructor meetings during the week of 05/10/21 to 05/14/21, and administrative meetings on 04/14/21, 04/29/21, and 05/12/21. Parent and student feedback opportunities were part of the annual family and student surveys beginning in March of 2021 and through May 2021. Additional feedback was gathered during after school Graduation-Track Information Night on 05/20/21. The IPI was certified online after being reviewed by educational partners. The A-G will be presented to the board and educational partner teams in March prior to the April due date. The LRP was presented to educational partners prior to certification and completion for the SELPA.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

The LEA plans to use the additional concentration grant add-on funding to increase staffing through paraprofessionals, support staff for mathematics and English language arts and science classes, as well as the hiring of a school nurse. The paraprofessional will work closely with the Special Education team and the English Language Development teacher to make sure that students who are participating in SPED programming and ELs are given additional support for their classes. The subject-specific support personnel will ensure that students struggling in those areas are able to learn more and mitigate any learning loss. These subject-specific teachers will also work closely with the subject area teams to better know the curriculum and where they can provide stronger support to students with needs in those areas.

The ELO includes plans for the following:

- Extending instructional learning time
- Accelerating progress to close learning gaps through the implementation, expansion, or enhancement of learning supports
- Integrated student supports to address other barriers to learning
- Community learning hubs that provide students with access to technology, high-speed internet, and other academic supports
- Supports for credit deficient students to complete graduation or grade promotion requirements and to increase or improve students' college eligibility
- Additional academic services for students
- Training for school staff on strategies to engage students and families in addressing students' social-emotional health and academic needs

The IPI includes plans for the addition of a PE Teacher's assistant as well as continuing education and services for students while on campus.

The learning recovery plan for special location students focuses on the assessment of student learning and academic needs, their social-emotional needs, high-quality instruction and support, and supporting students returning to in-person instruction from distance learning.

There is no comparison data available due to the LEA being a single site. Therefore, the school is not able to provide comparison data between schools. However, there has been an increase in staff between the different school years.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

The LEA engaged educational partners through meetings on December 1. This included a parent-level meeting, a student-level meeting, and a staff-level meeting. Educational partners were able to express their concerns and ask questions at these meetings. This was also a time for input from educational partners if there were additional needs not mentioned or focused on as well as input for changes that would be more effective.

Additionally, announcements regarding input opportunities for educational partners will be distributed electronically through text messages, emails, and telephone calls in the preferred contact language for families, including Spanish, English, and any other language that appears in student records. School personnel who are bilingual are able to provide interpreting services for non-English-speaking families during feedback opportunities on an as-needed basis. Additional feedback opportunities specific to plans will be offered during the board of directors meetings during public comment moments as well as during meetings where relevant plans have been listed on the agenda.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

The funds from the American Rescue Plan Act most notably consist of the ESSER III. The plan was passed by the governing board for the LEA, and 20% of the funds are specifically earmarked for mitigating learning loss. The plan covers the support of staffing, specifically the hiring of a paraprofessional position to assist struggling students in all un-duplicated groups. The plan also supports an increase in cleaning, janitorial staffing, janitorial supplies, PPE, and other health and safety measures implemented, mandated, or required. Additionally, facility costs and maintenance for safety are supplemented by this funding. Additional technology and support for students as well as the expansion and support of the summer school/ intersession program are supported by this funding stream.

The Elementary and Secondary School Emergency Relief expenditure plan is being used to include improvement in technology, technology systems and training, teacher and staff training, staffing, recruitment of qualified staff, campus safety, and maintaining the continuity of learning for students. These funds also supply resources for custodial and facilities positions and supply needs to ensure the health and safety of students and staff alike. Additionally, the funds are being used to support a school nurse position. The school nurse has already become an important member of the campus community and students and staff alike feel comfortable approaching the nurse with their needs. Students have responded well to the nurse's lessons and support to the point that more of them are remaining in class, thereby increasing their learning time and efforts.

Per ELO Plan: NOVA Academy has primarily allocated ESSER funds to costs associated with COVID-related campus operations costs pertaining to safety, health, and wellness of teachers, school staff, and students.

Challenges that the school faced included obtaining PPE and other supplies related to COVID health and safety endeavors. This was due to the supplies being in high demand as well as staff recruitment difficulties in a national staffing shortage.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update.

The fiscal resources received for the 2021-22 School year are being utilized in a manner that is consistent with the applicable plans through planning and implementation phases that ensure the best benefit for students. When looking at the current LCAP document adopted for the current school year, multiple items within the new funding fit within the goals and the actions already mentioned and planned for; including preparing for student academic growth, growing student learning, increasing stakeholder and educational partner engagement, providing services for all students including their academic and social-emotional needs, providing for student health and safety across physical, emotional, psychological, and technological standpoints, and maintaining a healthy and safe learning environment for all students align completely with the current LCAP document.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA’s 2022–23 LCAP.

Instructions

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA's educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

Prompt 1: *“A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2021–22 Local Control and Accountability Plan (LCAP).”*

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

Prompt 2: *“A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.”*

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California *Education Code* Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: *“A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.”*

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (<https://www.cde.ca.gov/fg/cr/relieffunds.asp>) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (<https://www.cde.ca.gov/fg/cr/>) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: “A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.”

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: “A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.”

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education
November 2021

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
NOVA Academy - Coachella	Renee Lancaster, CEO	Renee-lancaster@nova-academy.org (714) 569-0948 ext 1027

Plan Summary 2022-2023

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

NOVA Academy Early College High School in Coachella has, since 2010, provided its students with a rigorous learning environment that is still nurturing and growth-focused. Students are given the opportunity to earn college credits while still in high school. Such an opportunity has been a pivotal part of the WASC-Accredited program since its inception, with the doors opening to hope for the future and the development of strong community and career leaders. The mission of NOVA Academy Early College High School is to inspire, educate and prepare all students to be successful in college, career, and in life. Individualized program concepts help students succeed in their high school career and transition into college and the greater world. Students at NOVA who attend college classes during their high school years have increased confidence in navigating the college system, feel more prepared for college, and have the potential of reducing their family's financial impact of college tuition after they graduate high school. NOVA Academy pays for students' college courses. It provides them with their college textbooks and materials while taking college classes during their high school years.

Early college high schools are small schools designed to help students earn a high school diploma and up to two years of college credits toward a Bachelor's degree. Early college high schools have the potential to improve high school graduation rates, and college retention rates and better prepare all students for high-skill careers by engaging them in a rigorous college preparatory curriculum. NOVA Academy prepares students for the 21st century. It offers advanced opportunities to gain the knowledge and skills needed to smoothly transition to higher education or a career with marketable skills. The core values of NOVA are Family, The Whole Child, Early College High School, Academic Excellence, and Compassion.

With over 200 students in attendance, over four grade levels, 9-12, the school is located in the city of Coachella, which is in the Southern California desert and region of the Coachella Valley. Reflecting the majority of the surrounding community, the majority of students are Hispanic. Our goal is to provide first-generation college-goers, students from low socio-economic backgrounds, and minority students access to an academically rigorous, blended high school/college curriculum.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

After a review of the California Dashboard and Local Data as reflected in the LCAP metrics, the following successes were noted:

The graduation rate has remained a solid rate with a low dropout rate.

There was a drop in student Chronic Absences during the 2020-2021 school year.

Students and parents and families responded at higher rates to the surveys outlined in the “Engaging Educational Partners” section, with parents increasing their participation by 17.12 percentage points. Parents and families also increased their participation in Parent-Teacher Conferences and Parent University events by 25 percentage points.

The survey responses show a marked improvement in overall satisfaction with the school and the school’s programs, with student scores increasing 8.1 percentage points and parent and family satisfaction increasing 9.13 percentage points.

Overall, Goal 2 saw the most positive changes in metrics.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

We find a need connected to the Graduation Rate, College and Career Indicator (A-G completion and graduation rate combined), as well as an English Language Arts performance drop in the most recent testing data (2020-2021). This is a continuing need from previous years, along with decreases in reclassification percentages for EL students. There was a decrease instead of maintenance of normal score distribution. Some could be accounted for as the gap in testing sessions due to the Distance Learning atmosphere for the 2020-2021 school year. However, this is not the only reason for the score discrepancies. Further connection to the data from the ELPAC, SBAC, and internal data collections needs to be a focus for the school.

The SBAC scores for the graduating class of 2022 show a marked drop. Many of the students struggled to get normal classwork completed during the school year with learning at a distance. With the lack of connection to the school and their learning, many students have found that their need for interaction with other learners and their teachers is just as important as reading the materials.

Even though we did not have suspensions listed for the current metric, a return to face-to-face learning has led to a change in student behaviors and exposure to negative behaviors and activities that were not seen in the Distance Learning environment. Therefore, it is important that we look for alternatives to suspension for our special populations who, historically, get suspended more often than majority groupings. These groupings would be the Hispanic and Low Socioeconomic Status (SES) students.

Overall, Goal 1 saw the most negative changes in metrics.

In Goal 3, an identified need comes from the staff reflection tool in connection to state academic standards. In this reflection tool, staff indicated that the professional learning needs or individual teachers and the support for teachers on standards not yet met should be a focus for administration.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

Goal statement simplicity focusing on actions that fit the goals best has seen a concerted effort in the generation and solidification of goals. A new student survey and parent/ family satisfaction was implemented in 2019 and has shown high fidelity inconsistency for student and parent/ family perceptions of the school. This is to help continue the efforts through a similar metric towards the reaching of specific goals. This is also a portion of an effort to engage more educational partners in the LCAP process.

In an effort to increase student academic scores and achievement, this year's LCAP increases teacher and staff training with a shift to focus on Visible Learning; something that was used in the past and showed strong results. The idea is to find the areas of instructional practice that are already effective and do more of those areas.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

NOVA Academy - Coachella is the only school identified for this LEA in this LCAP.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

The LEA integrates work from the Business Office, Administration, teaching staff, faculty, support staff, and input from the stakeholders of the school in the development of plans and programs.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The school will monitor and evaluate the plan to support students and school improvement through the collection of data from benchmarks, state testing (such as the ELPAC), stakeholder feedback, internal audits, program effectiveness reviews, A-G Requirement completion, graduation and drop-out rates, college attendance percentages, teacher credentialing data, instructional material audits and alignments to the most current state standards, facility reviews (FIT), standards implementation reviews, EL proficiency progress, AP exams, EPA scores, course access reviews, attendance data, suspension and expulsion rates, as well as other internal and external data. This data will show where needs and areas of improvement are and what we are doing well.

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Students were sent the annual Student Climate Survey on March 2, 2022. This was posted via the School-Wide Google Classroom and the student emails. Students were prompted to complete the survey in their Family and LINK/ Tutorial classes. The survey was closed to further answers on April 11, 2022.

Parents were sent the Family-School Relationship Survey for LCAP at the same time as the students, on March 2, 2022. This survey has both an English version and a Spanish version. This survey focuses on four key areas: School Fit (the perception of a sense of belonging), School Climate (the perception of how the school feels like a team), Grit (the perception of student behaviors towards difficult situations), and School Safety (the perception of how safe the school is for students). This was done via an email blast to all listed email addresses for parents and families of students. Parents and families were presented with the opportunity to complete the survey in English or in Spanish during Parent Teacher Conferences, where Chromebooks were available for this purpose. Parents and families were also presented with another opportunity during the Parent University events presented between Parent Teacher Conferences and Spring Break. The survey was closed to further answers on April 11, 2022.

Teachers and Staff were provided with the opportunity to give input on the Actions, Services, and Metrics during multiple PD meetings, with the PD meeting on March 25, 2022, being a primary meeting for this input. Teachers were presented with the LCAP from the Mid-Year update where they could make comments via a Google Doc as well as a JamBoard project where they could add additional information about successes and areas for improvement. These were provided to teachers and staff via the staff Google Classroom, Teacher Hub, and emails prior to the meeting. The Implementation of State Academic Standards (Priority 2) Reflection Tool was presented and explained to teachers and support staff on April 15, 2022, for submission.

The NOVA Academy Governing Board Members and the public at large were provided the Mid-Year Update in January 2022 and the Annual Update Input session in April 2022.

A summary of the feedback provided by specific educational partners.

Parents and families indicated in the feedback session during Parent University that successes in the program include Family classes where students receive individualized attention and help, connections to special programs and support personnel (such as Special Education Case Managers and the Academic Intervention Program), teacher office hours, positive motivation efforts for students, the enjoyability of the classes (making it more fun and engaging to learn in these classrooms), and the overall educational programs. Many parents and families involved in the feedback process noted that they were happy with seeing the positive changes in their students in grades, interpersonal relationships, social-emotional development, and overall growth into young adults.

The 2021-2022 Family-School Relationship Survey for LCAP provided the following information: Parents and families were most satisfied with the School Climate, rating it 91.93% satisfactory (the previous survey was 80.61%). Next is School Fit with a satisfaction rating of 86.65% positive feedback (the previous survey was 83.67%). The lowest scores related to how student interests connected to the school activities offered and student reports about openness to asking for help from adults. School Safety was rated with 77.83% positive feedback (the previous survey was 78.57%). Grit, the lowest-rated section, was rated with 69.93% positive feedback (the previous survey was 58.33%). The increase in the School Climate rating is a positive sign. School Fit and School Safety maintained similar satisfaction ratings. There was a significant increase in Grit, but the low number shows that there is a need for the teaching of good habits that will build student endurance and grit.

The 2021-2022 Student Climate Survey provided the following information: Students were most satisfied with the Climate of Support for Academic Learning with a rating of 94.79% (the previous survey was 83.43%). Next was Safety with 91.15% positive feedback (the previous survey was 78.70%). The third was the Sense of Belonging (School Connectedness) with an 86.36% satisfaction rating (the previous survey was 86.39%). Last was Knowledge and Fairness of Discipline, Rules, and Norms at 84.09% (the previous survey was 84.02%). The close nature of the scores for Sense of Belonging and Knowledge and Fairness of Discipline, Rules, and Norms shows that there is consistency in practice for the school, but more improvement should be made in these areas. An area of significant improvement is in the sense of Safety for students section of the survey. The vigilance of teachers and staff, and the willingness of students to report bullying behavior by other students is one area of change. Additional improvement can be made in the area of Knowledge and Fairness of Discipline, Rules, and Norms, specifically taking into account the survey results.

The NOVA Academy Governing Board Members asked questions regarding the changes in metrics and Desired Outcomes and came to the conclusion that these changes were creating realistic and attainable goals. The NOVA Academy Governing Board Members also asked if the verified data source introduced in the 2021-2022 school year would become a metric to put into the LCAP. It was explained that there is not enough longitudinal data as of yet to make this a reporting metric on the LCAP, but would be a strong item to report in the summer. The verified data source has students complete math and ELA benchmark tests three times in the school year, and that data is triangulated to see student growth across grade levels.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

The addition of providing academic and classroom management/ behavior intervention training to teachers and staff came from the low numbers of student grit perceptions by parents as well as student scores and progress in their academic classes. Additional Research on Emotional Intelligence will be a part of the tasks that Administration and Teacher Leaders participate in throughout the school year with the

goal of finding additional interventions and supports for students to help them grow their grit and learn connected skills. Parent University and Parent Training enhancements on the topic of grit will also be a focus for the Family Engagement and Counseling team. Helping parents learn the skills that they need to encourage grit and determination in their students will create a multi-prong approach to student support and success.

Research and connection to the literature on Visible Learning (such as but not limited to, Assessment-Capable Visible Learners, teacher clarity, PLC development, and rebounding into learning) will be a major focus for the 2022-2023 school year and for future years of implementation and work. When previously utilized and studied, Visible Learning engaged teachers and students at a different level and encouraged growth in student scores and success.

Goals and Actions

Goal 1

Goal #	Description
Goal 1	NOVA Academy will increase student proficiency and academic achievement for all students, as measured through internal data and state-level data in all subject areas. Using data from state-mandated testing (primarily CAASPP and ELPAC testing), subject-specific benchmarks, level-specific testing (i.e., AP tests), interim testing, as well as student grade results and growth, the school will work to analyze each student’s current standing and work to help them through scaffolded supports to grow in their learning.

An explanation of why the LEA has developed this goal.

Students at this school have shown a need for growth in all areas of academics and proficiency. Using supports that help students starting at the level where they are at, the school works to bring them to where they should be based on their learning level, age level, and cognitive level. Then the school works to help the students get to where they can soar beyond.

Student success and increases in performance and achievement have always been significant goals for the school. With one of our core values being Academic Excellence, we believe that "Learning in a rigorous yet nurturing environment promotes a love of ideas while encouraging discovery, creativity, and engagement." Focusing on student success in proficiency and achievement is part of that value.

This goal will measure outcomes related to the State and Local Priorities 4, 5, and 8 (Pupil Achievement, Pupil Engagement and Other Pupil Outcomes).

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
California Dashboard - A-G Completion Rate and Local Data - Subject	2020 Graduating Class All Students: 63% SES: 63% SPED/ ELL/ FY: no reportable data - data groups too small	2021 Graduating Class All Students: 82.5% SES: 82.5%			2024 Graduating Class All Students: 80% SES: 80% SPED: 80% ELL: 80%

Actions

Action #	Title	Description	Total Funds	Contributing
1.a	College Bound	<p>Preparing for College and Career</p> <ul style="list-style-type: none"> Audits of student transcripts will be completed yearly, with Family teachers assisting in College Pathways training and understanding. Students who are not meeting A-G requirements will be encouraged to retake classes to meet these requirements above and beyond standard graduation requirements. Counselor (s) will give special attention to students transferring in from other schools, so the counselor(s) know which students need a little more attention in this area. <p>College Opportunities/ College Bound 101</p> <ul style="list-style-type: none"> Students who meet the specified GPA threshold for participation in classes (based on the partnering college’s guidelines) will be allowed to take college classes beginning as early as their second semester of 9th grade. Students will have access to courses online, on the college campus, or at NOVA Academy, with NOVA teachers facilitating or teaching the classes (based on partner college’s guidelines and rules). This can include, but is not limited 	\$47,717	Y

Action #	Title	Description	Total Funds	Contributing
		<p>to, students who otherwise qualify for A-G completion also taking part in a College 101 style course through a local college to get them ready for the next step and future college applications.</p> <p>AP Classes</p> <ul style="list-style-type: none"> Students will be able to take AP classes (available per teacher authorization and specialization). Students are recommended and requested for the class and also will be given support for testing, including technical support for tests that require a speaking and listening portion for completion. Students of all groups are eligible to take these classes, similar to the college course program. 		
1.b	Restorative Justice Practices	<p>Restorative Circles</p> <ul style="list-style-type: none"> Teachers, administration, and counseling staff members will participate in Restorative Circles for students facing or returning from suspensions. The purpose of the RCs is to bring all stakeholders in the student's education together as a team to work with the student, their family, and the larger NOVA family to make sure students are in the classroom as much as possible. When students are out of the classroom, they lose valuable learning time and disconnect from their teachers and peers. Therefore, keeping students at the school as much as possible provides the best outcomes for students. Students who know the staff cares for their well-being and academics will help them see the importance of being in class more often and with more minor issues that lead to suspension. <p>Senior Intervention Circle</p> <ul style="list-style-type: none"> The Senior Intervention Circle is used when students in the Senior Seminar classes have not completed their portfolios in preparation for the Senior Exit Interviews, are failing any number of classes, or are showing signs that they might not be eligible to earn a diploma. Students meet with a panel of teachers, 	\$0	N

Action #	Title	Description	Total Funds	Contributing
		<p>administration, and other support staff members to discuss reasons for their behaviors and how they need support in completing the goal of graduation.</p> <p>Mediation</p> <ul style="list-style-type: none"> When students have interpersonal conflicts, they will need mediation. Mediation is used in the event of students have an issue with multiple people involved. Seating charts, sharing, and other activities designed to help generate empathy towards others are encouraged. Further steps take place if mediation fails. The idea of mediation is to keep students from escalating any situation by taking care of their terms and providing a safe space to come to agreements. The idea is not to make everyone friends, but to learn in the same area as others, no matter their disagreements. 		
1.c	Seminars	<p>Freshman Seminar and Senior Seminar</p> <ul style="list-style-type: none"> Students will begin their time with NOVA Academy in Freshman Seminar by understanding the importance of doing well in 9th grade and high school and how it can impact their future careers and high education options. Students will end their time with NOVA Academy in a Senior Seminar where they will compile a learning portfolio using skills for future college and career opportunities (such as how to write a resume and how to write a cover letter) and will end the class with an Exit Interview process with various levels of stakeholders from the school and the local community. 	\$70,728	Y
1.d	Summer inNOVAtion Institute	<p>Summer inNOVAtion Institute</p> <ul style="list-style-type: none"> The Summer inNOVAtion program will take place over one or two weeks, depending on when summer school takes place and 8th grade ends for the district schools. It will introduce incoming freshmen students to the Vision and Mission of NOVA Academy and provide them with early connections to teachers, administrators, peers, and upper-level students. This time will 	\$56,343	Y

Action #	Title	Description	Total Funds	Contributing
		<p>include placement testing, conversations about the school’s program, and encouragement to start on the best foot possible in high school.</p> <ul style="list-style-type: none"> This will use data from student surveys, focus groups, and subject grade outcomes during the following year, among other metrics. Students also begin to learn common NOVA practices that they will face each day in the classroom. During each Summer inNOVation Institute, activities can vary greatly depending on the staff member running the program that year. However, common events are creating tie-dye t-shirts, trips to a local college or university campus, and fun activities with their classmates and staff. <p>NOVA Academy Visitor’s Faire</p> <ul style="list-style-type: none"> The school will invite students in the local 8th-grade classes to a Visitor’s Faire to learn more about the school. Students will be able to come onto the campus and participate in games and fun learning experiences in a carnival-type manner. This will also work as an open-house-style event where the school can share information about the school, its mission and vision for students, and current students’ progress and successes with the local community members. 		
1.e	Testing Supports	<p>Test Like a Champion</p> <ul style="list-style-type: none"> Test Like a Champion will take place during both semesters. It will consist of after-school sessions for all grade levels in all areas of study and optional weekend events for 11th-grade students. Students will learn skills needed for all subject sections of CAASPP testing. There is a focus on supporting the information they have already learned and putting it to work during fun activities that cause them to access it. Encouraging students in the SPED and EL groups to join in on these sessions will allow students in these groups to interact with their peers and encourage their growth through learning in another format. This 	\$12,049	Y

Action #	Title	Description	Total Funds	Contributing
		<p>also allows them to use the knowledge and skills they already possess in a manner that connects to their past, present, and future, allowing for better recall of information and solidifying their learning. Test Like a Champion's idea is that students have the skills needed to succeed on the test, but the knowledge that is not used is not kept. The program will help students better access their already known information.</p> <p>Eagle Assist</p> <ul style="list-style-type: none"> • Preparing students for testing will include paying for AP and PSAT testing and implementing interim testing for the CAASPP. Students will learn through Senior Seminar and Freshman Seminar, and Family classes how to better focus on their tests and complete social-emotional procedures to help themselves during the stress of testing. <p>School-Wide Programs</p> <ul style="list-style-type: none"> • Interactive Presentation programs and vocabulary/ grammar programs assist students in interactive learning. Other programs will be available based on teacher suggestions, student requests, and best practices. 		

Goal Analysis for 2021-2022

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The only difference in the actions planned and their implementation is that Test Like a Champion did not take place during the Fall Semester, only the Spring Semester. There were not enough staff members or students able to participate in such a plan due to turnover rates, the transition back into in-person learning, and student illnesses.

There are no other substantive changes in the goal or its implementation and planned actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Decrease in college tuition, transportation, and tours due to COVID-19 restrictions, decrease in Seminar course offerings due to a decrease in enrollment, and decrease in AP course offerings and testing expenses as focus shifted to learning loss mitigation strategies.

An explanation of how effective the specific actions were in making progress toward the goal.

The actions were effective in that growth in student academic achievement throughout the year took place. However, the effect of these actions on some of the metrics will not be apparent until the next California Dashboard release since that data is disbursed in the next academic year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes to the planned goal.

Three metrics were found to reflect the same data. Two of the listed metrics will be removed to allow the one metric with more substantial and easier understood data to take precedence.

The desired outcomes for the EL Progress metric and the College and Career Readiness Indicator were changed to accommodate for the difference in in-person learning achievement and distance learning achievement. The EL Progress desired outcome was changed from 80% to 75% and the College and Career Readiness Indicator desired outcome was changed from 80% to 70%.

There are no changes to the actions listed.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goal 2

Goal #	Description
Goal 2	NOVA Academy will increase stakeholder engagement through multiple actions, such as surveys, focus groups, community events, Parent University, and student attendance, increasing student and family satisfaction when stakeholder input is put to use.

An explanation of why the LEA has developed this goal.

Stakeholder engagement connects to two of our values, Family and The Whole Child.

Family, “NOVA faculty and staff believe in creating a friendly, family environment to help ensure every student feels a sense of belonging and personal support. Students even participate in a class called “Family,” which other schools have replicated.”

The Whole Child, “A holistic approach to education centers on the development of each student’s social, emotional, intellectual, and physical well-being.”

By connecting to the school’s various stakeholders, the students are served through Family’s idea since it becomes its own family. We are NOVA eagles, and together we will soar. Through Family and stakeholder connections, we nurture the Whole Child in their engagement with others.

This goal will measure outcomes related to State and Local Priorities 3 and 5 (Parent Involvement and Pupil Engagement).

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
DataQuest/ California Dashboard - Chronic Absence Indicator AND Local Data - Attendance Rate	All Students: 13% SES: 13.2% SPED: 0% ELL: 7.7% FY: no reportable data - group too small	2020-2021 All Students: 7.50% SES: 14.10% SPED: 21.40% ELL: 5.40% FY: no reportable data			Decrease All Students: 10% SES: 10% ELL: 5% FY: no reportable data Maintain SPED: 0%

Actions

Action #	Title	Description	Total Funds	Contributing
2.a	Attendance	<p>Reduction of Chronic Absenteeism</p> <ul style="list-style-type: none"> Reducing the Chronic Absenteeism rate for students helps them by giving them access to learning in real-time rather than making up more learning from when they were absent. Connections with families will help to begin bringing students to campus more often. Additionally, the counseling team will help by working with parents to determine appropriate measures at home to help with student attendance. Looking at each student’s individual needs and reasons for their lack of attendance, the counseling team will work with Family teachers and other staff members to determine the next steps in encouraging student attendance and how to deal with chronic absences. The counseling team and the administration will also look into further support and resources that families and students might need in this area. <p>Student Attendance</p> <ul style="list-style-type: none"> Students will be encouraged to attend as much school as possible. Based on the attendance rate from previous years, students are falling into patterns of non-attendance or tardiness. To combat this, the school will find a program that fits their students and encourages parents and guardians to make sure students are attending as many classes as possible for better learning. 	\$8,993	N

Action #	Title	Description	Total Funds	Contributing
2.b	Building Positive Relationships	<p>Family-School Relationship Survey</p> <ul style="list-style-type: none"> The school will present parents and guardians with a satisfaction survey called the “Family-School Relationship Survey” once a year during the Spring semester. This will connect parents and guardians to the school to be changed, created, or reduced for the students’ best benefit based on continuous data. <p>Student Climate Survey</p> <ul style="list-style-type: none"> The school administration will provide students with a campus culture and safety-based survey, the “Student Climate Survey,” where they will be able to voice concerns and make issues known quantitatively. Additional qualitative information can be gathered through but is not limited to focus group meetings, longer answer surveys, and student forums. 	\$13,354	Y
2.c	Parent University	<p>Parents and Guardians will be offered opportunities to attend monthly Parent University sessions throughout the school year. Meetings can include but are not limited to having guest speakers, food, awards and certificates, college fair presentations, and information based on student activities and behaviors (such as special sessions for parents of 12th-grade students to learn about the FAFSA and college applications). Parent University will work towards helping parents learn how to best support their students at home. This will be completed through activities such as, but not limited to, speakers, seminars, workshops, and presentations.</p>	\$90,585	Y

Goal Analysis for 2021-2022

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There were no substantive differences in the planned actions and actual implementation of the listed actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Immaterial difference between budgeted expenditures and estimated actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

There was a substantial increase in parent and student participation for the Family-School Relationship Survey for LCAP and the Student Climate Survey. This was due to outreach efforts and detailed meetings providing parents and students with the opportunity to better understand the importance of the LCAP and why their involvement and input in the process is vital to the success of the students.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes to the planned goal.

There are no changes to the metrics listed.

The desired outcomes for the Parent Participation in Parent Counsel desired outcome was changed from 30% to 15% to better reflect the current momentum of participation and connection.

The Parent University Action item (2.c) has added the following language: "Parent University will work towards helping parents learn how to best support their students at home. This will be completed through activities such as, but not limited to, speakers, seminars, workshops, and presentations."

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goal 3

Goal #	Description
Goal 3	NOVA Academy will provide basic services for all students, including standards-aligned materials needed to learn, highly qualified staff, learning supports for students at risk, and unduplicated-student sub-groups (Special Education, ELL, Foster Youth, Low SES), and supports based on program needs (technology and other physical materials).

An explanation of why the LEA has developed this goal.

Basic Services for all students will allow for connection to the school’s value of The Whole Child.

The Whole Child, “A holistic approach to education centers on the development of each student’s social, emotional, intellectual, and physical well-being.”

Students at all levels and from all walks of life deserve an equitable distribution of resources. Per decisions stemming from *Williams v. State of California*, all students should have equal and equitable access to instructional materials, facilities, qualified staff, and appropriate supports.

This goal will measure outcomes as related to State and Local Priorities 1, 2, and 7 (Basic, Implementation of State Standards, and Course Access).

Measuring and Reporting Results

Actions

Action #	Title	Description	Total Funds	Contributing
3.a	Academic Support	<p>Academic Recovery and Support Classes Options</p> <ul style="list-style-type: none"> The school will provide support classes in English Language Arts (ELD and Critical Reading) and Math (Math Support) for students struggling in these subjects. The curriculum will be provided as standards and student progress, and needs indicate. Additionally, students will have access to the Academic Improvement Plan and the staff member(s) in charge of the program, specifically the Academic Support Specialist. Credit Recovery students who are credit deficient will have access to recovery programs such as, but not limited to, APEX, Pearson Classroom, HMH Online, and seasonal Intercessions (as needed). Action specifics will include student access to support class teachers through office hours, training for the support class teachers, rigorous curriculum, teacher training on remediation and review for complex concepts, and how remediation and assessment can be completed in class. <p>LINK and Tutorial Program</p> <ul style="list-style-type: none"> The LINK and Tutorial program will allow students who are struggling to participate in LINK classes with subject area teachers, peer tutors, and more access to resources and enrichment for those seeing success in all of their courses through the Tutorial part of the program. Teachers will offer 6- 	\$369,652	Y

Action #	Title	Description	Total Funds	Contributing
		<p>week cycles of Tutorial where they provide new learning opportunities for students to enhance life skills, focus on a pet project, or learn something they would have never tried before. LINK affords students the chance for remediation and recovery in their coursework.</p>		
3.b	Curriculum	<p>Course Standards Alignment and Implementation</p> <ul style="list-style-type: none"> Through their alignment to UCOP standards and the Curriculum Maps, all courses will show that they are aligned to all state and federal standards. This will include, but not be limited to CCSS alignment and implementation for Mathematics and English Language Arts; alignment and implementation of California State Standards for Social Science, Visual and Performing Arts, Physical Education, Foreign Language Studies, and all Electives courses; CCSS Literacy Standards alignment and implementation in all classes; ELD Standards alignment and implementation in all classes; and NGSS alignment and implementation for all Science courses. <p>Materials for All Students</p> <ul style="list-style-type: none"> The school will provide students with all of the materials that they need, such as, but not limited to, textbooks, in-class technology, an email address, internet access while on campus and using school devices, and assistive technology where applicable. This will also include the training of the school's staff in these areas. The school will identify additional materials based on program offerings, changes, and advancements. 	\$117,384	Y
3.c	EL Supports	<p>Students classified as English language learners will be provided with support to ensure their growth and reclassification. This will include but is not limited to English language development support classes, critical reading support classes, curriculum for designated support classes, school-wide teacher training on English language development</p>	\$7,132	Y

Action #	Title	Description	Total Funds	Contributing
		standards, school-wide training on EL strategies to use in the classroom, specialized parent universities to help parents understand how best to help their students at home, and training for support class teacher specialization. This can also include training on ELD standards integration through all curriculum areas.		
3.d	Highly Qualified Teachers/ Staff	All teachers and staff will be highly qualified and have the credentials and certifications needed to conduct their contracted duties. This includes, but is not limited to, single-subject teachers teaching in their subject area. All other staff will have the proper training for their project programs.	\$28,252	Y
3.e	SPED/ 504 Supports	<p>SPED Services</p> <ul style="list-style-type: none"> Students who qualify for special education services will be provided with the support they need through an inclusion process. This includes, but is not limited to, adaptive technology and accessibility features on the technology used within the classroom setting, individual support, verification of accommodations being met, and annual reviews. The administration and the SPED team will consider teacher training, attendance at conferences focusing on students with special needs in the integrated classroom, and training on best practices. <p>SPED and 504 Accommodations</p> <ul style="list-style-type: none"> Staff will be trained on how to read IEPs and 504 plans, their responsibilities in the classroom, and things like, but not limited to, homework, accommodations on classwork, seating arrangements, and assistive technology. An at-a-glance document will be given to each teacher for each student that they have connections to who has either an IEP or a 504 to ask questions about supports and write down how those supports specifically look in their classroom. Binders with the full at-a-glance for the IEPs and the accommodations listed for the 504s will be given to teachers with new pages being updated during the 	\$0	N

Action #	Title	Description	Total Funds	Contributing
		<p>next staff meeting after each IEP meeting, or 504 re-evaluations are completed.</p> <ul style="list-style-type: none"> • Training and working with specialists and support providers help teachers better understand the students' needs in their classrooms. Further staff PD discussions and training on best practices that support the students in these programs are also critical. <p>504 Supports</p> <ul style="list-style-type: none"> • Students who qualify for 504 plans will be provided the support they need within their classrooms and through resources sent home. This includes, but is not limited to, adaptive technology and accessibility features on their technology used in class, individualized communication and attention from identified staff members, and annual reviews of the 504. 		
3.f	Technology Supports	<p>General Support</p> <ul style="list-style-type: none"> • Teachers, administration, and support staff will work with students in common areas of need, mainly focusing on 9th-grade level teachers (Family, English 9, Freshman Seminar, Physical Education, Biology) to help students learn the technology will be using in their learning. This means helping students learn how to use G Suite tools, apps, Google Classroom, and materials support and write an appropriate email. <p>Student Ambassadors</p> <ul style="list-style-type: none"> • Creating a Student Ambassador program will allow peer-teaching and provide an outlet for the more technology-savvy students to help in the classroom. This also allows for learning appropriate technology usage and processes, thereby reducing suspension rates, classroom interruptions, and plagiarism. 	Expenses Included in 3.b	N

Goal Analysis for 2021-2022

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There were no substantive differences in the planned actions and actual implementation of the listed actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Immaterial difference between budgeted expenditures and estimated actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

Administration and staff work together to find areas of improvement and growth that will best benefit the students and the school. Biology has a new curriculum. ELA is returning to implementing the curriculum after distance learning. Math is going strong on their curriculum. History works hard to connect new resources and the existing curriculum. World Language received updated textbooks of their continuing curriculum. PE works to include the new health expectations to make implementation run smoother. VAPA switched from visual art to music at the semester, so that curriculum is completely new to the school.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes to the planned goal.
There are no changes to the metrics.
There are no changes to the desired outcomes.
There are no changes to the actions listed.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goal 4

Goal #	Description
Goal 4	NOVA Academy will maintain a healthy and safe learning environment for all students by focusing on keeping students in class as much as possible by strengthening classroom management, reducing suspensions, increasing a sense of safety, and focusing on student Social-Emotional Learning.

An explanation of why the LEA has developed this goal.

This goal is connected to the Whole Child value and the Academic Excellence and Compassion values, student’s safety, health, and overall wellness is a vital area for focus.

The Whole Child, “A holistic approach to education centers on the development of each student’s social, emotional, intellectual, and physical well-being.”

Academic Excellence, “Learning in a rigorous yet nurturing environment promotes a love of ideas while encouraging discovery, creativity, and engagement.”

Compassion, “Seeing through the lens of compassion gives hope, builds bridges, and develops a community of caring individuals.”

Focusing on these areas will allow NOVA Academy to reach all students and help them succeed no matter where they are in society or in their home life.

This goal will measure outcomes related to State and Local Priorities 1 and 6 (Basic and School Climate).

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
California Dashboard - Suspension Rate	All Students: 6.7% suspended at least once SES: 6.5% suspended at least once SPED/ ELL/ FY: no reportable data - data	2020-2021 All Students: 0			Decrease All students: 4% SES: 4%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	groups too small				Maintain low percentages for SPED, ELL, and FY
DataQuest - Expulsion Rate	2019-2020 All Students: 0	2020-2021 All Students: 0			Maintain for all students
Local Dashboard - CDE FIT Document - School Facilities	Overall Rating: GOOD	data collected at end of year - not available for mid-year update			Maintain Overall Rating: GOOD

Actions

Action #	Title	Description	Total Funds	Contributing
4.a	Family Class	Students are assigned to a Family unit when they first enroll, whether they are transferring from another school or starting with NOVA in the 9th grade. Students stay in these groups as long as they are enrolled in the school. Students do not change Family classes beyond infrequent and specific circumstances. This is following the idea that you cannot choose your relations. Still, you can decide how you handle those relationships. Family class is a critical component of the NOVA program. These Family classes as student-centered environments encourage students' academic growth and interpersonal skills, empathy, compassion for others, and other social-emotional related skills. Many students have stayed connected to their Family teachers and their peers in their Family group many years after they have graduated. This has increased the number of siblings and cousins who have decided to attend the school in subsequent years. This further connects students to the school, allowing them to feel belonging and community and succeed in their academics. The Family class is designed to help students learn through noncognitive experiences and factors that matter for their school	\$130,993	Y

Action #	Title	Description	Total Funds	Contributing
		performance but are not specifically academic. Focuses for this are: becoming an independent, self-directed learner, building an identity as a college student, regulating one's behavior, managing a complex schedule and workload, adapting to new social environments, navigating the norms and expectations of college life, setting realistic goals, advocating for oneself, persevering in the face of challenges, believing that hard work will pay off, the ability to build lasting relationships, awareness of potential opportunities.		
4.b	Positive Learning Environments	<p>Classroom Management Training</p> <ul style="list-style-type: none"> Keeping students in the classroom as much as possible means that they will learn more. When students are supported through effective classroom management and given more time to learn, they will perform better in their lives. Supporting teachers in their classrooms will include training on campus-wide expectations and procedures for dealing with everyday issues with students and administrative support for effective teaching practices in the school. <p>Common Practices</p> <ul style="list-style-type: none"> Using John Hattie's concepts in his meta-analysis of Visible Learning, all staff levels will work on common practices to create a sense of belonging and a sense of routine, which is needed for all levels of students. The school will also implement concepts from the Doug Lemov book Teach Like a Champion. These common practices will create a set standard of behavior in classes campus-wide, leading to better behaviors, fewer interruptions of learning, and a better learning environment. Summer PD training will include training on Common Practices such as, but not limited to, those from Visible Learning, Teach Like a Champion, and other learning campaign literature and research. The administration will be trained in related texts and 	\$0	N

Action #	Title	Description	Total Funds	Contributing
		will participate in activities such as, but not limited to, training, certifications, webinars, and conferences.		
4.c	Student Safety	<p>Student Wellness Committee</p> <ul style="list-style-type: none"> Comprising teachers, staff, students, parents/guardians, and community members, a Student Wellness Committee shall be formed and meet quarterly to identify concerns and issues regarding student wellness. This includes, but is not limited to, the determination of student mental health supports that can be offered and informing others about the connection between mental health and achievement. <p>Increase Student Safety and Feelings of Safety</p> <ul style="list-style-type: none"> Using data from the Student Climate Survey's safety portion, the school will determine steps to take that will help students in their feelings of safety. This may include, but is not limited to, the changing of gate procedures, security guard protocols, better training of students and staff for emergency issues, and increased functionality of the security camera system during the school day. <p>Digital Safety</p> <ul style="list-style-type: none"> Use of the program GoGuardian (or similar based on current contract availability) will allow for staff members to be aware of student internet usage, as well as provide support and information to concerned parents. The specific use of GoGuardian Beacon allows for suicide, self-harm, and harm-to-other prevention by notifying a list of personnel of students at risk for harm. Student technology use requires good digital citizenship, which will require learning for what good digital citizenship means. 	\$94,152	Y
4.d	Suspension and Expulsion Rates	<p>Maintain/ Decrease Suspension Rate</p> <ul style="list-style-type: none"> The school will maintain a low suspension rate (under 10%) or work to lower the suspension rate from the previous years (over 10%). This will take place through Restorative Justice Practices 	\$33,716	Y

Action #	Title	Description	Total Funds	Contributing
		<p>(RJP). Additionally, the administrative team will provide teachers with training to learn how to implement the RJP and improve their classroom management skills. Hence, students stay in class more and are more engaged, thereby decreasing the suspension rate.</p> <p>Maintain/ Decrease Expulsion Rate</p> <ul style="list-style-type: none"> The school will work to maintain a low expulsion rate (under 10%) or work to lower the expulsion rate from the previous years (over 10%). This will take place through Restorative Justice Practices (RJP). Additionally, the administrative team will provide teachers with training to learn how to implement the RJP and improve their classroom management skills. Hence, students stay in class more and are more engaged, thereby decreasing the expulsion rate. 		

Goal Analysis for 2021-2022

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There were no substantive differences in the planned actions and actual implementation of the listed actions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Inclusion of Administrator assistance with teacher training, professional development, and observations.

An explanation of how effective the specific actions were in making progress toward the goal.

The actions show strong effectiveness in that the metrics were either maintained or improved upon.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes to the planned goal.

There are no changes to the metrics.

There are no changes to the desired outcomes. Even though the metric for the Suspension Rate shows that the desired outcome has been met, the fact that the Year 1 Outcome data is coming out of distance learning does not fully support the removal or change to the metric or desired outcome. We expect the Year 2 Outcome to be closer to the Baseline data. Therefore, the desired outcome remains the same.

Positive Learning Environments - Classroom Management Training added the following language: “Supporting teachers in their classrooms will include training on campus-wide expectations and procedures for dealing with everyday issues with students and administrative support for effective teaching practices in the school.”

Positive Learning Environments - Common Practices added the following language: “Summer PD training will include training on Common Practices such as, but not limited to, those from Visible Learning, Teach Like a Champion, and other learning campaign literature and research. Administration will be trained in related texts and will participate in activities such as, but not limited to, trainings, certifications, webinar, and conferences.”

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students for 2022-2023

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
\$831,831	\$125,597

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
41.66%	0%	\$0	44.42%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

The actions provided to all students in the school were first weighed for their benefit for EL students, Foster Youth, and Low-Income students. Since the majority of the students in the school (95% is 228 out of 240 students) are in the Low-Socioeconomic grouping, with 20% being listed as ELs (with many more being previously categorized as ELs) (per California Dashboard), the best actions would be those that reached all students. Many of the struggles that ELs face still face those who have reclassified and those who are English Only students in Foster Youth and Low-Socioeconomic areas.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Services are not being increased as much as they are being fleshed out and made more specific. Actions that have been added are those that bring more information into the actions as well as specifies services more.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The LEA plan to use the additional concentration grant add-on funding to increase staffing through paraprofessionals, support staff for mathematics and English languor arts and science classes, as well as the hiring of a school nurse. The paraprofessional will work closely with the Special Education team and the English Language Development teacher to make sure that students who are participating in SPED programming and ELs are given additional support for their classes. The subject-specific support personnel will ensure that students struggling in those areas are able to learn more and mitigate any learning loss. These subject-specific teachers will also work closely with the subject area teams to better know the curriculum and where they can provide stronger support to students with needs in those areas.

The ELO includes plans for the following:

- Extending instruction learning time
- Accelerating progress to close learning gaps through the implementation, expansion, or enhancement of learning supports
- Integrated student supports to address other barriers to learning
- Community learning hubs that provide students with access to technology, high-speed internet, and other academic supports
- Supports for credit deficient students to complete graduation or grade promotion requirements and to increase or improve students' college eligibility
- Additional academic services for students
- Training for school staff on strategies to engage students and families in addressing students' social-emotional health and academic needs

The IPI includes plans for the addition of a PE Teacher's assistant as well as continuing education and services for students while on campus.

The learning recovery plan for special location students focuses on the assessment of student learning and academic needs, their social-emotional needs, high quality instruction and support, and supporting students returning to in-person instruction from distance learning.

There is no comparison data available due to the LEA being a single site. Therefore, the school is not able to provide comparison data between schools. However, there has been an increase in staff between the different school year.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	1:48

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of certificated staff providing direct services to students	N/A	1:16

Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).
- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC Section 52064[e][1]*). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated students
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fq/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.
- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs

may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services.
- If “Yes” is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000.

Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

- Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
