ARTS LESSONS
for Grades TK-5

Calling All Creatives!

To share your creativity and imagination in the classroom through your lesson plans in the areas of visual art, choral music, instrumental music, dance, theatre, and media arts.

Your lesson can be arts specific, enhancing another content area via the arts, or fully integrated with another content area (co-equal).

Your approved lesson will be posted on the Riverside County Office of Education (RCOE) webpage to be shared with other teaching professionals in our county and beyond.

Our goal is to share the wealth of knowledge and experience among teachers while striving to bring greater access to the arts for all students on a daily basis.
