

**STUDENTS**

**SUBJECT: Health Examinations**

The County Board of Education and County Superintendent of Schools recognize that periodic health examinations of students may lead to the detection and treatment of conditions that impact learning. Health examinations also may help in determining whether special adaptations of the school program are necessary.

In addition to verifying that students have complied with legal requirements for health examinations and immunizations before enrolling in school, the County Office of Education shall administer tests for vision, hearing and scoliosis as required by law.

(cf. 5141.31 - Immunizations)

The County Office of Education shall ensure that staff employed to examine students exercise proper care of each student and that examination results are kept confidential. Records related to these examinations shall be available only in accordance with law.

(cf. 5125 - Student Records)
